## FOIA Status Reports

The Quarterly Freedom of Information Act Status Reports provide a quick summary of FOIA requests in each Program and Region. The reports use information from FOIAonline to generate processing statistics on the number of requests opened, closed, pending and overdue. The reports also list the 10 oldest requests in each organization. The intent of these reports is to strengthen the Agency's accountability for FOIA. The Quarterly Status Reports respond to the 2010 FOIA Workgroup's recommendation to keep the Agency's senior leaders informed about the status of requests in their organizations.

### Current Quarterly Status Reports

**Update (April 9, 2018) -** The 2nd quarter FOIA Status Reports have been posted to this page. If you are unable to view the reports, please press "F5" to refresh your browser.
